

**Welcome!** Thank you for visiting our family farm and forest. We continue to adapt and are happy to have back many of our traditional activities while still creating a safe and comfortable experience for you, your family and friends. The map and descriptions highlight our main attractions, to help you navigate.

**Upon arrival** drive out to the fields following the marked roads - grab a saw and map along the way.

**Parking** is spread across the farm in open areas or just off the road under the mature trees. Be considerate and do not block the road, even for a short time. Please keep your vehicle parked away from the barn until you and your group are ready to leave - only a small amount of "short term" parking is provided in the gift shop/barn area.

**Explore the farm** while you look for your tree. Take time to wander the fields and hang out at one of the campfires spread out amongst the picturesque mature forest, all planted by previous generations of Hansens.

**Find your tree**, cut it down and bring it to your vehicle, you can even multitask by paying online through our website.

**Activities!** Hayrides, gift shop, music and food & drink are back this year. All take place near the barn. In addition, we have hot beverages available at two new stops along our hayride route. You may hop on/off the wagon at these stops, depending on where you parked. Masks are required inside the gift shop. And, we are serving our Christmas sausage and hot dogs outside via walk-up windows near the gift shop entrance.

**Ready to leave**, put your tree on/in your vehicle, load up your entire crew and head for the exit for the "Drive-Thru Pay & Tree Tie-On" process. Our team will greet you where you can pay via mobile checkout while workers shake, bale and tie the tree onto your vehicle. Wreaths and other decorations will be located in this area for a quick grab on your way out. Pay for your tree inside the gift shop if you'd like to do some shopping or listen to music, but no food or beverages are allowed as we want everyone to be masked. If you've paid online just show us the email receipt! On our busiest days the 2nd checkout station will be open.
